

# Guidance for Authors

**Aims and Scope** *Proceedings of the Society for Indonesian Biodiversity – International Conference (Proc Soc Indon Biodiv Intl Conf)* is an annual publication of the Society for Indonesian Biodiversity (SIB) that published selected-presented papers on the conference. The proceeding encourages submission of manuscripts dealing with all aspects of biodiversity and climate change that emphasize issues germane to biological and nature conservation, including agriculture, animal science, biochemistry and pharmacology, biomedical science, ecology and environmental science, ethnobiology, genetics and evolutionary biology, hydrobiology, microbiology, molecular biology, physiology, and plant science. Presented manuscripts with relevance to conference theme that transcend the particular ecosystem, species, genetic, or situation described will be prioritized for publication.

**Article** The proceeding seeks original full-length research papers, short research papers (short communication), reviews, monograph and letters; especially for the research conducted in the Islands of the Southeast Asian reign or Nusantara, but also from around the world.

**Acceptance** The acceptance of a paper implies that it has been reviewed and recommended by at least two reviewers, one of whom is from the Editorial Advisory Board. Authors will generally be notified of acceptance, rejection, or need for revision within 2 to 3 months of receipt (or as scheduled by the committee). Manuscript is rejected if the content is not in line with the conference scope, dishonest, does not meet the required quality, written in inappropriate format, has incorrect grammar, or ignores correspondence in three months. The primary criteria for publication are scientific quality. The accepted papers will be published in a chronological order.

**Copyright** Submission of a manuscript implies that the submitted work has not been published before (except as part of a thesis or report, or abstract); that it is not under consideration for publication elsewhere; that its publication has been approved by all co-authors. If and when the manuscript is accepted for publication, the author(s) agree to transfer copyright of the accepted manuscript to *Proc Soc Indon Biodiv Intl Conf*. Authors shall no longer be allowed to publish manuscript without permission. Authors or others are allowed to multiply article as long as not for commercial purposes. For the new invention, authors are suggested to manage its patent before published.

**Submission** The conference only accepts online submission, through e-mail to [unsjournals@gmail.com](mailto:unsjournals@gmail.com) or another designated email address by the committee. The manuscript must be accompanied with a cover letter containing the article title, the first name and last name of all the authors, a paragraph describing the claimed novelty of the findings versus current knowledge, and a list of five suggested international reviewers (title, name, postal address, email address). Reviewers must not be subject to a conflict of interest involving the author(s) or manuscript(s). The editor is not obligated to use any reviewer suggested by the author(s).

## Preparing the Manuscript

Please make sure before submitting that: The manuscript is proofread several times by the author (s); and is criticized by some colleagues. The language is revised by a professional science editor or a native English speaker. The structure of the manuscript follows the guidelines (sections, references, quality of the figures, etc). Abstract provides a clear view of the content of the paper and attracts potential citers. The number of cited references complies with the limits set by *Proc Soc Indon Biodiv Intl Conf* (around 20 for research papers).

Microsoft Word files are required for all manuscripts. The manuscript should be as short as possible, and no longer than 7000 words (except for review), with the abstract < 300 words. For research paper, the manuscript should be arranged in the following sections and appear in order: Title, Abstract, Key words (arranged from A to Z), Running title (heading), Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgements, and References. All manuscripts must be written in clear and grammatically correct English (U.S.). Scientific language, nomenclature and standard international units should be used. The title page should include: title of the article, full name, institution(s) and address(es) of author(s); the corresponding authors detailed postal and e-mail addresses, and phone and fax numbers.

**References** Author-year citations are required. In the text give the authors name followed by the year of publication and arrange from oldest to newest and from A to Z. In citing an article written by two authors, both of them should be mentioned, however, for three and more authors only

the first author is mentioned followed by et al., for example: Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation as shown with word “*cit*” should be avoided. Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, personal communication; Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in an alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal’s name according to the ISSN List of Title Word Abbreviations ([www.issn.org/2-22661-LTWA-online.php](http://www.issn.org/2-22661-LTWA-online.php)). The following examples are for guidance.

### Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning; a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158.

The usage of “et al” in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. *N Engl J Med* 965: 325–329

### Article by DOI:

Slifka MK, Whitton JL. 2000. Clinical implications of dysregulated cytokine production. *J Mol Med*. Doi:10.1007/s001090000086

### Book:

Rai MK, Carpinella C. 2006. Naturally occurring bioactive compounds. Elsevier, Amsterdam.

### Book Chapter:

Webb CO, Cannon CH, Davies SJ. 2008. Ecological organization, biogeography, and the phylogenetic structure of rainforest tree communities. In: Carson W, Schnitzer S (eds) *Tropical forest community ecology*. Wiley-Blackwell, New York.

### Abstract:

Assaed AM. 2007. Seed production and dispersal of *Rhazya stricta*. 50<sup>th</sup> annual symposium of the International Association for Vegetation Science, Swansea, UK, 23-27 July 2007.

### Proceeding:

Alikodra HS. 2000. Biodiversity for development of local autonomous government. In: Setyawan AD, Sutarno (eds) *Toward mount Lawu national park; proceeding of national seminary and workshop on biodiversity conservation to protect and save germplasm in Java island*. Sebelas Maret University, Surakarta, 17-20 July 2000. [Indonesia]

### Thesis, Dissertation:

Sugiyarto. 2004. Soil macro-invertebrates diversity and inter-cropping plants productivity in agroforestry system based on sengon. [Dissertation]. Brawijaya University, Malang. [Indonesia]

### Online document:

Balagadde FK, Song H, Ozaki J, Collins CH, Barnet M, Arnold FH, Quake SR, You L. 2008. A synthetic *Escherichia coli* predator-prey ecosystem. *Mol Syst Biol* 4: 187. [www.molecularsystemsbiology.com](http://www.molecularsystemsbiology.com)

**Tables** should be numbered consecutively and accompanied by a title at the top. **Illustrations** Do not use figures that duplicate matter in tables. Figures can be supplied in digital format, or photographs and drawings, which can be ready for reproduction. Label each figure with figure number consecutively.

**Uncorrection proofs** will be sent to the corresponding author by e-mail as .doc or .docx files for checking and correcting of typographical errors. To avoid delay in publication, proofs should be returned in 7 days.

**A charge** The cost of each manuscript is determined by the conference committee.

**Reprints** One copy of proceeding will be supplied to authors; reprint is only available with special request. Additional copies may be purchased by order when sending back the uncorrected proofs by e-mail.

### Disclaimer
